Re: Ford Harness Recall

Dear Mr. White:

I am writing in follow-up to Damon Motor Coach's submission of a 573 Form in this matter.

After further review and investigation of the above-mentioned issue, as well as conversations with other RV Manufacturers, Damon believes this to be a Ford matter. Damon purchases incomplete chassis' from Ford, which includes components like the harness in question. The harness is not modified during our production process.

Damon will provide Ford with the owner information they need to complete the recall process.

If you have any questions or concerns, please feel free to contact me at 800-860-3812 x303.

Respectfully,
